POGEE CONFERENCE

13th International Conference for Oil,
Gas & Energy Industry

17th May 2017 | Karachi Expo Centre

CALL FOR PAPERS

*Paving Ways to Fulfill
Energy Demands & Supply*

ABSTRACT SUBMISSION GUIDELINES

- The theme of POGEE 2017 is **“Paving Ways to Fulfill Energy Demands & Supply”**.
- An abstract, not exceeding 400 words, to be submitted by the speaker/author prior to the submittal of the paper, no later than **28 February 2017**.
- English will be the official language of the Conference.
- Selected participants will have to submit the final papers, latest by **28 March 2017**. The committee will intimate the selection to the speaker/author.
- The final paper should also include brief profile of the speaker/author along with the passport size photograph.
- Define each abbreviation the first time it is used in the text by placing in brackets
- The Paper Abstracts may be submitted through email to **conference@pegasus.com.pk**
- Submittals may also be made through post as per the given contact information, having envelopes titled as **“POGEE Conference 2017 - Call for Papers”**.

REVIEWING PROCEDURE AND SELECTION

- Papers are chosen on the strength of the abstract, its particular content matter and relevance to the session themes.
- The Conference Selection Committee reserves the rights of selection.
- The committee will intimate the selection to the speaker/author.
- The Conference Program allocates a maximum of 20 minutes to each presentation.

Last Date of Abstract Submission: 28th Feb, 2017

INDUSTRY OVERVIEW:

Pakistan's existing primary energy supplies are highly skewed towards more expensive fuels like oil and gas instead of indigenous hydro, coal and alternate energy. Due to the fast paced industrialization and increasing energy demand, economies are shifting toward alternative energy sources that have no undesired consequences.

Similarly, to enhance oil and gas reserves, the government is trying to attract companies to undertake new exploration and production activities.

In order to overcome the electricity crisis the Government of Pakistan is working on multi-pronged strategy including development of Power Projects based on indigenous & imported resources both in the public and private sector. Furthermore, to increase the generation capacity the government is focusing on expanding the transmission infrastructure.

CONFERENCE OVERVIEW:

POGEE Conference is the leading event for the global Oil, Gas & Energy industry and it brings in key energy experts and professionals around the globe and recognized a must attended Energy event.

2017 PROPOSED PROGRAM

The program committee invites you to submit proposals for discussion on the following suggested topics and also welcomes original research contributions:

TOPICS TO BE COVERED:

- Role of LNG in Growing Global Gas Demands
- Global LPG Market Overview & its Impact
- Coal Utilization Technologies with Reduced Environmental Emissions
- Co-Gasification of Coal and other Carbon based Fuels
- Alternative Energy Startups – From Innovation to Implementation
- Government policy and incorporated Energy law
- Opportunities for Regional Energy Trade
- Clean Energy applications to save indigenous resources
- Optimization and improvements of Coal Fired Power Plant
- EPC (Engineering, Procurement and Construction) – One Window Solution
- Responsibilities of Regulatory Authority to resolve Energy Problems
- New Era Of Energy Mix to meet electricity shortfalls
- Exploration Potential & Challenges
- Unrestrained Shale Gas Emissions

BENEFITS OF PARTICIPATION - AS A SPEAKER

- Address a highly interactive forum where industry leaders gather to exchange key industry knowledge
- Share your valuable experiences
- Reach a highly targeted and focused audience
- Cater to the challenges by interacting with industry professionals and drive new solutions

WHO WOULD ATTEND?

- Government Officials
- Executives from Mining, Refining, Supply & Distribution Industries
- Geological Specialists
- Government & Private Trade Executives
- Research & Development Scientists
- Independent Power Producers
- Power Industry Project Developers
- Consultants & Technologists
- Logistics Operators & Suppliers
- Media Representatives
